Winston Smith works for the Ministry of Truth in London, chief city of Airstrip One. Big Brother stares out from every poster, the Thought Police uncover every act of betrayal. When Winston finds love with Julia, he discovers that life does not have to be dull and deadening, and awakens to new possibilities. Despite the police helicopters that hover and circle overhead, Winston and Julia begin to question the Party; they are drawn towards conspiracy. Yet Big Brother will not tolerate dissent - even in the mind. For those with original thoughts they invented Room 101. . . This edition of Importing Into the United States contains material pursuant to the Trade Act of 2002 and the Customs Modernization Act, commonly referred to as the Mod Act. Importing Into the United States provides wide-ranging information about the importing process and import requirements. We have made every effort to include essential requirements, but it is not possible for a book this size to cover all import laws and regulations. Also, this publication does not supersede or modify any provision of those laws and regulations. Legislative and administrative changes are always under consideration and can occur at any time. Quota limitations on commodities are also subject to change. Therefore, reliance solely on the information in this book may not meet the "reasonable care" standard required of importers.
