The European Federation for Medical Informatics (EFMI) is a regional coordinating body for the National Informatics Societies of Europe. EFMI has organized a number of congresses. The Congresses in Cambridge 1978, Berlin 1979, Toulouse 1981, Dublin 1982 and Brussels 1984 were all successful in providing the wide variety of people in the caring and specialists in the computing profession with up-to-date information from the expanding multidisciplinary field of medical informatics. We hope that the sixth European Congress on Medical Informatics, MIE-85 in Helsinki will be equally successful. You have in your hand the pre-publication of papers to

It also provides a permanent record with relevant bibliography for workers in the field of medical computing. All the papers have been refereed and the referees' suggestions incorporated in the final text. Rapid publication, using camera ready paper, reduces the time required for editing and indexing. The editorial board has worked hard to improve the standard of the communications and to reduce the number of errors. Very few papers did not arrive in time to be included in the proceedings: these are marked with * in the
