Golite Mood

English light and health

The human body uses light cues, such as those provided by the sun, to time certain functions.

Light exposure can boost mood and energy.

Light has direct alerting and energizing effects and can improve our performance. Bright light therapy is also successfully used for mood relief, especially

What is Bluewave Light Therapy? – Light Therapy

- Use your goLITE in a well-lit room to minimize eyestrain. • For best results, place the goLITE near you at eye level so it shines directly into your eyes.

Read Book Golite Mood

- **Relief** The proper response to light therapy occurs through the retina of the eyes, not through the skin. Page 10 Quick On To turn the light source on or off, push LIGHT. Timing a Session To start a timed session, press TIMER.
