Isuzu of Japan introduced the KB20 /  
25 series Faster pickup in 1972. The  
regular wheelbase models were  
designated "20", while "25" referred  
to the longer version. Derived from  
the Isuzu Florian, the Faster shared  
many components, including doors  
and the front-end assemblage. It  
served as a replacement for the Isuzu  
Wasp, a pickup version of the Bellett  
which preceded the Florian.
