Indeed, it is a book that changed the direction of poetry in both Spain and the Americas, a pathbreaking and defining work of modern literature. Timed to coincide with the citywide celebration of García Lorca in New York planned for 2013, this edition, which has been revised once again by the renowned García Lorca scholar Christopher Maurer, includes thrilling material—new photographs, new and emended letters—that has only recently come to light. Complementing these additions are García Lorca's witty and insightful letters to his family describing his feelings about America and his temporary home there (a dorm room in Columbia's John Jay Hall), the annotated photographs that accompany those letters, a prose poem, extensive notes, and an interpretive lecture by García Lorca himself. An excellent introduction to the work of a key figure of modern poetry, this bilingual edition of Poet in New York, a strange, timeless, vital book of verse, is also an exposition of the American city in the twentieth century.

Written while Federico Garcí a Lorca was a student at Columbia University in 1929-30, "Poet in New York" is one of the most important books Lorca produced, and certainly one of the most important books ever published about New York City. Indeed, it is a book that changed the direction of poetry in both Spain and the Americas, a pathbreaking and defining work of modern literature. In honor of the poet's centenary, the celebrated Lorca scholar Christopher Maurer has revised this strange, timeless, and vital book of verse, using much previously unavailable or untranslated material: Lorca's own manuscript of the entire book; witty and insightful letters from the poet to his family describing his feelings about America and his temporary home there (a dorm room in Columbia's John Jay Hall); the annotated photographs which accompany those letters; and a prose poem missing from previous editions. Complementing these new additions are extensive notes and letters, revised versions of all the poems, and an interpretive lectures by Lorca himself. An excellent introduction to the work of one of the key figures of modern poetry, this bilingual edition of "Poet in New York" is also a thrilling exposition of the American city in the 20th century.

A revised edition of this major writer's complete poetical work And I who was walking with the earth at my waist, saw two snowy eagles and a naked girl. The one was the other and the girl was neither. -from "Qasida of the Dark Doves" Federico Garcia Lorca was the most beloved poet of twentieth-century Spain and one of the world's most influential modernist writers. His work has long been admired for its passionate urgency and haunting evocation of sorrow and loss. Perhaps more persistently than any writer of his time, he sought to understand and accommodate the numinous sources of his inspiration. Though he died at age thirty-eight, he left behind a generous body of poetry, drama, musical arrangements, and drawings, which continue to surprise and inspire. Christopher Maurer, a leading García Lorca scholar and editor, has brought together new and substantially revised translations by twelve poets and translators, placed side by side with the Spanish originals. The seminal volume Poet in New York is also included here in its entirety. This is the most comprehensive collection in English of a poet who—as Maurer writes in his illuminating introduction—"spoke unforgettably of all that most interests us: the otherness of nature, the demons of personal identity and artistic creation, sex, childhood, and death."

For the first time in a quarter century, a major new volume of translations of the beloved poetry of Federico García Lorca, presented in a beautiful bilingual edition The fluid and mesmeric lines of these new translations by the award-winning poet Sarah Arvio bring us closer than ever to the talismanic perfection of the great García Lorca. Poet in Spain invokes the "wild, innate, local surrealism" of the Spanish voice, in moonlit poems of love and death set among poplars, rivers, low hills, and high sierras. Arvio's ample and rhythmically rich offering includes, among other essential works, the folkloric yet modernist Gypsy Ballads, the plaintive flamenco Poem of the Cante Jondo, and the turbulent and beautiful Dark Love Sonnets--addressed to Lorca's homosexual lover--which Lorca was revising at the time of his brutal political murder by Fascist forces in the early days of the Spanish Civil War. Here, too, are several lyrics translated into English for the first time and the play Blood Wedding--also a great tragic poem. Arvio has created a fresh voice for Lorca in English, full of urgency, pathos, and lyricism--showing the poet's work has grown only more beautiful with the passage of time.

Doomed to hell, Spanish poet Federico Garcia Lorca is confronted by two different versions of his former self.

Written in 1929–1930, when Federico García Lorca was visiting Columbia University, Poet in New York stands as one of the great Waste Land poems of the 20th century. It expresses, as Betty Jean Craige writes in this volume,"a sudden radical estrangement of the poet from his universe" -- an estrangement graphically delineated in the dissonant, violent imagery which the poet derives from the technological world of New York. Craige here describes -- through close analysis of the structure, style, and themes of individual works in Poet in New York -- the chaos into which this world plunges the poet, and the process whereby he is able, gradually, to recover his identity with the regenerative forces of nature. Her study demonstrates that, though seemingly unique in form and motifs, Poet in New York is integral with Lorca's overall poetic achievement.

A David Craig Austin Poetry Prize-winning writer presents a collection of works in which she deeply empathizes with her characters, who include misfits, artists, the students of a fifteenth-century school, and a composer on the brink of madness. Original.

In June of 1929, Federico Garcia Lorca left his native Spain on a journey that would become a vision-quest through New York City, the Vermont countryside, and Cuba. While he failed miserably at learning English during his brief sojourn at Columbia University, he nonetheless created a powerful new poetic idiom to voice his perceptions of social injustice and apocalyptic retribution. Guided by the duende, liminal principle of creativity and death, Lorca represents New York as dystopia cum Armageddon, ultimately redeemed by the Blacks of Harlem and the telluric forces unleashed to retake the decadent, soulless civilization of North America.

The notion of "duende" became a cornerstone of Federico Garcia Lorca's poetics over the course of his career.

This “blistering satire” of modern China was a finalist for the Man Booker International Prize and a New York Times Editor’s Choice novel (Publishers Weekly, starred review). Lenin’s Kisses is set in modern day China, in the village of Liven. Nestled within the Balou Mountains, the people have enough food and leisure to be content—until their crops and livelihood are obliterated by a snowstorm in the middle of summer. Then a county official arrives with a peculiar plan. He wants to use the villagers to start a traveling performance troupe. Next, he’ll take the profits and buy Lenin’s embalmed corpse from Russia and install it in a mausoleum to attract tourism. But the success of the Shuanghuai County Special-Skills Performance Troupe comes at a serious price. Named a finalist for the 2013 Man Booker International Prize, Lenin’s Kisses is “a satirical masterpiece” (Kirkus) that was on Best Book of 2012 lists from the New Yorker, MacLeans, and Kirkus, and was also a New York Times Editors’ Choice.
