Michael Tellingner has become one of South Africas bestselling export authors. His regular articles on human origins and his book Slave Species of god have been praised by readers in over 20 countries. Michael is a scientist in the true sense of the word, never shying away from controversial issues, scrutinising every clue meticulously.

Slave Species of God: The Story of Humankind from the ...

In Slave Species of god - Tellingner achieves the following: • draws clear and startling analogies between new discoveries in genetic engineering and ancient archaeological finds.. • highlights emerging scientific information overlooked in the past.. • unravels the Bible’s often obscure stories by linking these to their original forms in Sumerian clay tablets and other prehistoric writings.. • provides explicit answers to why our modern world has become so senseless and chaotic ...

Slave Species of god: Story of humankind - From the cradle ...

provides explicit answers to why our modern world has become so senseless and chaotic by revealing the very secrets of our prehistory.. While shattering myths about evolution and God, Michael Tellingner's Slave Species of god enables evolutionists and creationists to finally co-exist in one pond. The arguments are compelling, simple and refreshing, retracing the path of human evolution from the murky distant past to the religious dogma that haunts humankind today.
