Meet all of the engines in this Thomas & Friends board book with a padded cover! Train-loving boys and girls ages 2 to 5 will love to discover fascinating facts about Thomas, Nia, Bertie, Harold, and all their favorite Thomas & Friends characters in this sturdy board book with padded cover. In the early 1940s, a loving father crafted a small blue wooden train engine for his son, Christopher. The stories that this father, the Reverend W Awdry, made up to accompany the wonderful toy were first published in 1945 and became the basis for the Railway Series, a collection of books about Thomas the Tank Engine and his friends--and the rest is history. Thomas & Friends(TM) are now a big extended family of engines and others on the Island of Sodor. They appear not only in books but also in television shows and movies, and as a wide variety of beautifully made toys. The adventures of Thomas and his friends, which are always, ultimately, about friendship, have delighted generations of train-loving boys and girls for more than 70 years and will continue to do so for generations to come.

What does it take to bring the entire Island of Sodor Railway System to a halt? Just a crack in the track. Well, a crack in the track and some hail on rail . . . and a toad in the road, and a fuss on the bus. In fact, one thing leads to another until just about everything that can go wrong does go wrong. Luckily, there's a breakdown train with a couple of cranes that can fix a big mess (and they don't mind the rain). From the Hardcover edition.

Thomas invites you to meet all the Really Useful Engines on the Island of Sodor. Take a trip, pick up passengers and have fun with Thomas & Friends.

Find out what's big, medium, or small, and what's round, square, or circular.
