In today's business world, there is an enormous gap between how leaders are supposed to act versus how they actually act. As a leader, where do you fall on the spectrum? In his debut book, John Slone teaches readers about discovering one's Hidden You and using it to become the best leader possible. Before you can successfully lead others, you must first discover both the physiological and psychological attributes that make you, you. Every leader needs a systematic approach to successfully lead while taking into consideration the complexities of human behavior and the innate survival instincts that are consciously and subconsciously invoked in every human interaction. Only by understanding this can you begin your leadership evolution and embark on a journey toward leadership transcendence.
