Built Environment means human-made environment for Livelihood, Living, and Life, i.e. Livability of human beings with contentment. History throws light on the development of houses, buildings, villages, cities and mega cities along with many other amenities as per necessity and available technology. Future challenges related to the creation of built environment for human beings are now expected for the population of 8.6 billion in the year 2030, 9.2 billion in the year 2050 and 11.2 billion in the year 2100. These challenges include limited resources of land, water, air, food, jobs and shelters. Hence, we need Sustainable, Green, Smart villages and cities created by Urban Planners, Architects, Engineers and many other related consultants with the support of governing authorities. This revised edition of the book on Building Drawing, 6th Edition deals with the subject with an approach to build Sustainable, Green, and Smart Cities for Welfare of all. Highlights: # A new chapter on City Planning for the Future to motivate new architects and civil engineers to choose career in Urban Planning and Designing. # Upgraded chapters 1 and 2 to discuss sustainable development and designing of Smart Cities in detail. # A thorough discussion on the methods of preparing various types of drawings as per the Indian Standard specifications . # Latest case studies and quotations from well-known thinkers, architects and professionals to inspire learners to know more about the multidisciplinary subject, Built Environment . # Reading Exercises and Project Works to enhance practical skills of learners through subject and self-learning techniques

pattern following the chapter plan as per the NCERT books of class 11 and 12. □ The new edition is empowered with an additional exercise which contains Exemplar & past 5 year NEET (2013 - 2017) questions. Concept Maps have been added for each chapter. □ The book contains 30 chapters in all as per the NCERT books. □ Each chapter provides exhaustive theory followed by a set of 2 exercises for practice. The first exercise is a basic exercise whereas the second exercise is advanced. □ The solutions to all the questions have been provided immediately at the end of each chapter. The complete book has been aligned as per the chapter flow of NCERT class 11 & 12 books.

The contemporary workplace is ever changing. In many countries the effects of economic globalization has seen the rise in zero-hour contracts, the erosion of trade union power and income inequality. In addition, high-performance work systems, business ethics and environmental sustainability are now creating tremendous challenges in many organizations. These developments play out amongst differing national and international contexts. This fluid and diverse environment makes it even more important to understand the myriad of different theories underpinning human resource management and to explore its impact on organizations, managers and workers. This engaging textbook provides an essential introduction to both the □how□ and □why□ of human resource management; it looks at the way organizations manage human capability, but also exposes the tensions inherent in the employment relationship, encouraging the reader to reflect critically on the realities of contemporary HRM. Building on the success of the previous five editions, this new edition includes: Two new chapters on Ethics in HRM and Green HRM New □HRM as I see it□ video interviews with real life HR managers sharing their experiences on managing people in organizations, accessible through a new interactive ebook New □HRM and Globalization□ features discussing the particular challenges faced by international
