By some counts, Model United Nations (MUN) has become the single most popular extracurricular academic activity among high school students. More than two million high school and college students have assumed the roles of ambassadors from real United Nations member countries, participated in spirited debate about the world's most pressing issues, and called, "Point of order, Mr. Chairman!" Now, in Coaching Winning Model United Nations Teams, Ed Mickolus and J. Thomas Brannan give MUN teachers and coaches the information they need to succeed. In this informative volume, the authors (MUN

coaches themselves) provide detailed guidance for each step of the MUN path, from the first meeting in the teacher's classroom to the final days of an official MUN conference. Coaches will learn about the ins and outs of parliamentary procedure and the most effective ways to help their students draft position papers and resolutions. Most important, Mickolus and Brannan illustrate the many ways that teachers can inspire their students to take an active role in making the world a better place. By the time their students move on, MUN coaches will have instilled in them such important qualities as empathy, self-confidence, and grace under pressure. Annotation An engineer with experience in the automotive and chemical process industries, Budinski has compiled material he used to train new engineers and technicians in an attempt to get his co-workers to document their work in a reasonable manner. He does not focus on the mechanics of the English language, but on the types of documents that an average technical person will encounter in business, government, or industry. He also thinks that students with no technical background should be able to benefit from the tutorial. c. Book News Inc

This book covers various aspects of New Chinese Migration in Suriname in the 1990s and early 2000s. It is an ethnography of New Chinese Migrants in the context of South- South migration, but also a first ethnography of Chinese in Suriname, as well as an analysis of Surinamese ethnic discourse and ethnopolitics. Starting in the 1990s, renewed immigration from China changed the dynamics of the Surinamese Chinese community, which developed from a Hakka enclave to a culturally

and linguistically diverse, modern Chinese migrant group. Local positioning strategies of Chinese had always depended on ethnic entrepreneurship and political participation, but were now complicated by anti-immigrant sentiments.

CITIZEN NINJA stand up to power in pursuit of freedom, truth, and justice. Citizen Ninjas speak up; they don't wait for others to speak for them. Citizen Ninjas are prepared, discerning, self-reliant and assertive. They step out of their comfort zone to nimbly challenge powerful entities that disenfranchise the public and reduce citizen power. Citizen Ninjas respond to community issues and actively engage City Hall to make a difference. They pay attention to government business and actively direct elected public servants to create policies that benefit the interests of the whole community. They are the activists who demand government transparency and are the watchdogs who speak out when there is corruption or ethical wrongdoing. Citizen Ninjas are passionate. They know that their civic participation places them in a better position of influence when new regulations, mandates, and ordinances are enacted. Citizen Ninjas are activists who strive to preserve the power of self-government—a representative republic that is of the people, by the people, and for the people. They actively engage in the public square rather than passively allowing government agencies to make decisions on their behalf. While being passionate, Citizen Ninjas avoid throwing vitriolic word bombs like “fascist pig” or “baby killer” and instead build trust, find common ground, and work toward constructive solutions. Showing up at a city council meeting, a public workshop, a rally, or a town hall meeting to express dissatisfaction is the right thing to do, but being effective takes more than good intentions. Citizen Ninjas are smarter, more cunning and strategically savvy in approaching highly organized government agencies, powerful corporations and established non-governmental organizations they partner with. In CITIZEN NINJA author Baker presents a peaceful approach to political activism espousing an exchange of ideas, robust debate, respect, and tolerance as opposed to tactics which promote violence, hatred, prejudice, and bullying. Every two years, many Americans get busy and campaign for the candidate of their choice. Activity ranges from simply speaking to friends and family about their choices, to donating money, walking precincts, and voting. Then after the election the majority go back to working, playing, and raising families. CITIZEN NINJA explores the importance of continuing participation in government after elections. Baker stresses that We the People keep informed about what is going on in local government agencies—city council, school board, county board of supervisors, and metropolitan planning organizations, to seek opportunities for civic participation. In CITIZEN NINJA shows that we are the boss, politicians are the employees who require supervision and guidance and are more effective when having our support and attention. When we are part of the process, we are part of the solution. In CITIZEN NINJA readers learn how to speak up in public without being scared or intimidated. CITIZEN NINJA shows that to be effective in civil discourse, we must transform the way we think about activism. Standing up to power is not about acting out in anger, condoning violence, or relying on mean-spirited tactics. Rather it is about honesty, building trust, treating others with respect, working towards constructive solutions, and effective communication. With practice, CITIZEN NINJA readers will master skills that enable them to respond intelligently rather than to reacting to stimulation or provocation. These skills include how to seek opportunities for engagement, assess a setting, ask a question, discern a person's knowledge on an issue, neutralize a bully, and more!
